

The Complete Destinations Platform

Unifrog is an online platform that supports secondary schools to deliver their statutory duty to provide students with impartial and independent guidance on the full range of post-school options. The platform is particularly helpful because it is the only place students can compare every undergraduate university course in the UK as well as international opportunities. Additionally, the Unifrog platform allows students to access FE courses and the most comprehensive list of apprenticeships available across the country, including higher, SLP and degree apprenticeships.

Once students have explored their interests and compared the full range of pathways available to them, Unifrog provides one place for students to draft all materials needed for applications such as CVs or Personal Statements.

All students in Years 7-13 now have access to this website, in keeping with our commitment to provide students with outstanding careers guidance and tailored support when choosing their next step after school.

To log in for the first time, students need a sign-up code which is unique to their form group.

Benefits for teachers

Unifrog is a whole-school platform for KS3, KS4 and KS5 which allows teachers to track their pupils' progress and keep a record of their research and careers interactions. It makes it easy for teachers to collaborate with students on finding their best next step for them. They're able to provide feedback on applications such as CVs or Personal Statements as well as writing their subject references.

Information for parents

If you are a parent/carer and you would like to use Unifrog, we have set up a parent/carer login to allow you to support your young person every step of the way. Contact us for your unique login and guidance on how to navigate the platform.

If you would like more information on Unifrog please visit their website:
